Serving you in the Legislature has been an exciting adventure. When I came into office three years ago I truly believed the real potential for change would come from the good people in the community. My gut feeling was right. While occasionally government does serve the people well, I have found that the complexity and bureaucracy of politics is wasteful and sometimes even harmful to the public good.

The reality is that you are the best thing about this state and the best part about my job. I have met so many wonderful people who are making a difference in their communities just because they care: business leaders raising support for students, teachers and coaches nurturing the next generation, and concerned citizens pooling resources to build affordable senior housing. The list goes on and on.

Thank you for being who you are, for your investment in the community, and for your love of our neighborhood. I treasure the trust you have vested in me and, with your vote, I will continue to represent you with honor and integrity.
